

## Getting Started with iPedago **EVOLUTION**

Be sure to use **Google Chrome** as your browser for all iPedago work. EVOLUTION does not work completely in other browsers.

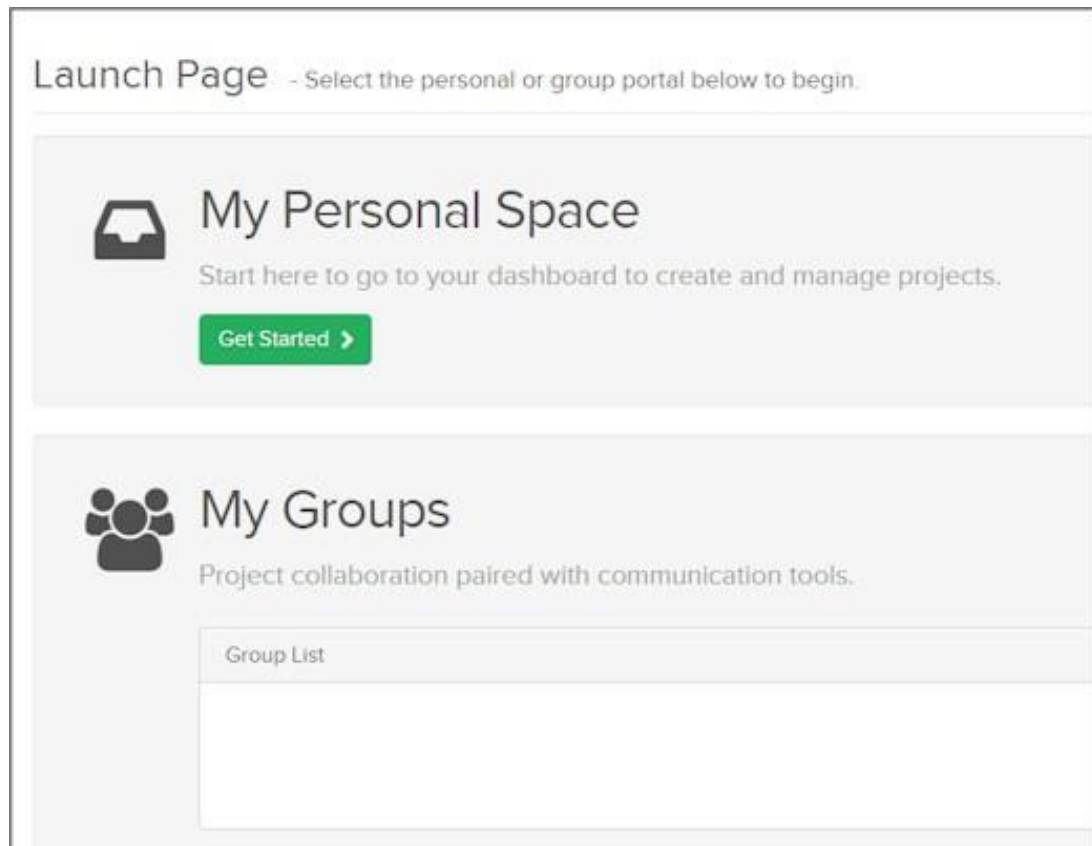

1. **Login to your account at the iPedago website.**

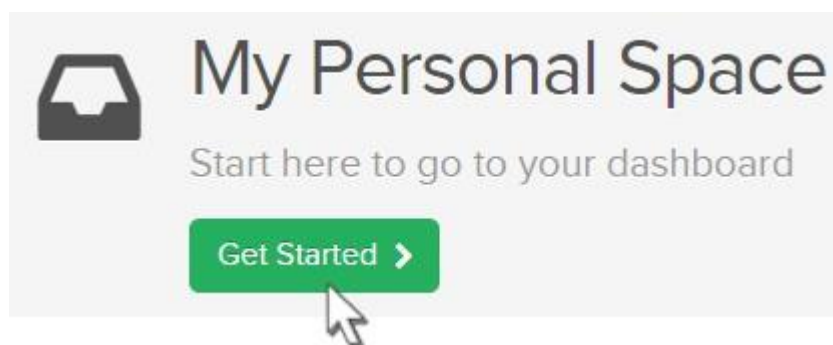

2. **Enter your login (email address) and password and click [Sign In](#).**

A screenshot of the iPedago login form. The form is titled "iPedago - Login" in orange text. It contains two input fields: "Email Address" and "Password". The "Email Address" field has a person icon on the left, and the "Password" field has a key icon on the left. Below the "Password" field, there is a checkbox labeled "Keep me signed in" and a link labeled "Forgot your password?". A blue "Sign In" button is located at the bottom right of the form.

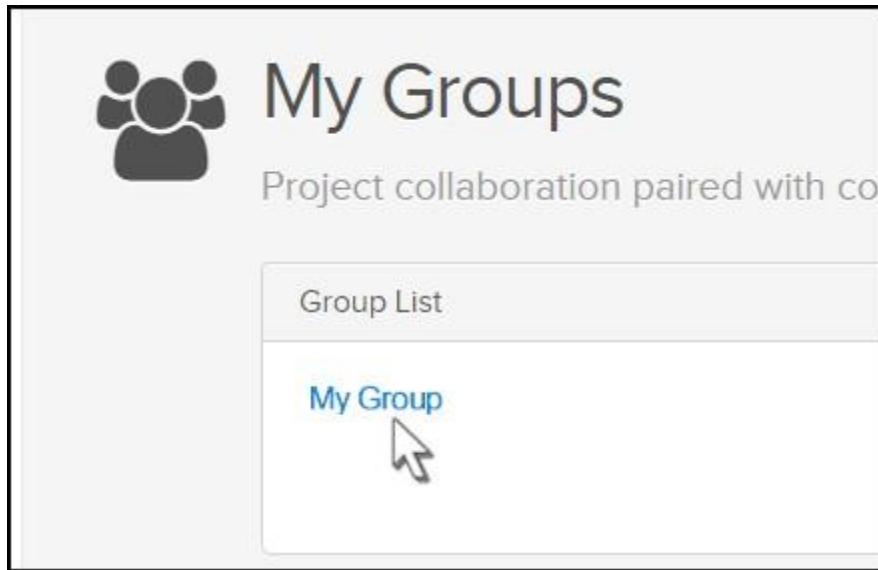

3. You'll arrive at the **Launch Page**. This page lets you choose whether to go to your personal account or to a group account if you belong to a group.

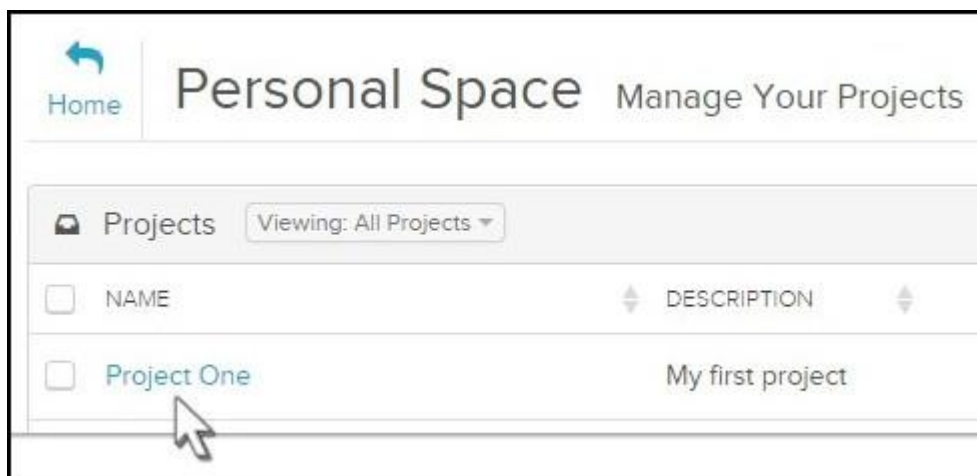

4. To go to your personal account, click the green **Get Started** button

5. If you have a group account, click its name to open it.

6. If you already have a project on your Dashboard (project list), you can open it by clicking on the blue project name.

Now, use [iPedago Quick Start](#) to learn how to create projects. (See upper right on your screen.)

**And, from the same menu, Help, Tutorial, and EVOLUTION Demos offer extensive resources.**

**Best of luck!**
